

DELIVERING EDUCATION SOLUTIONS.

MARTINEAU JOHNSON

WHO WE ARE:

A DEDICATED TEAM...

We are the Education Team at Martineau Johnson, one of the UK's leading independent law firms which provides a full range of commercial legal services to more than 80 universities and colleges across the country from our offices in Birmingham and London.

We are a successful and dedicated team of education specialists who work only with our university and college clients.

We are supported by a wider Education Sector Group, made up of specialist lawyers from across the firm, many of whom are recognised as leaders in their particular fields. They regularly work for education clients in the areas of their own expertise.

Further and higher education is one of our chosen sectors, and we have worked hard over many years to build a strong reputation for our work.

It is our commitment to the education sector which has established us as a practice of national reputation.

Our principles are simple.

We are dedicated to what we do. We are passionate about your business.

We provide a comprehensive and seamless service, based on sector knowledge and an accessible style.

We supply legal advice which is timely, competitively priced and commercially aware.

The success of our approach is confirmed by clients and commentators alike. Clients confirm that we provide "a very effective, high-quality service" and that they enjoy working with our "user-friendly and approachable team of lawyers".

COMMITTED TO THE SECTOR.

WHAT WE DO:

GOING FURTHER

As education goes through a period of change and expansion, we are working with some of the country's most innovative and entrepreneurial universities and colleges, providing effective legal support wherever it is needed.

We offer help with:

- capital funding and PPP/PFI
- constitutional and public law
- construction and development projects
- data protection and freedom of information
- disability discrimination and other equality issues
- employment and pensions
- governance and charity law
- innovative funding and tax-saving schemes
- mergers, collaborations and joint ventures
- protection and exploitation of research
- student complaints, discipline and appeals
- transnational provision

We circulate regular updates on topics of legal interest to the sector and run a regular programme of free breakfast briefings in Birmingham, London and the North.

We offer a wide-ranging training programme, tailored to the needs of individual institutions, and members of the Education Team regularly speak at sector conferences.

We have been able to support a national practice in this sector through use of modern communications, including intranet links, and of course our London office. The growth of our education practice is testament to the relevance to our clients of our core strategy.

AND HIGHER...

WHAT WE OFFER:

WE HAVE THE EXPERTISE

We work in partnership with our education clients, understanding the issues they face and helping them to solve problems in the most effective way possible.

We don't hide behind legal jargon - and we speak (and give our advice) in plain English.

Our service may complement an in-house legal team, or be provided directly to senior managers.

We add value by sharing our experience of the sector, by applying our legal knowledge and practical skills to the challenges that you face, and by offering you direct access to our resources and expertise.

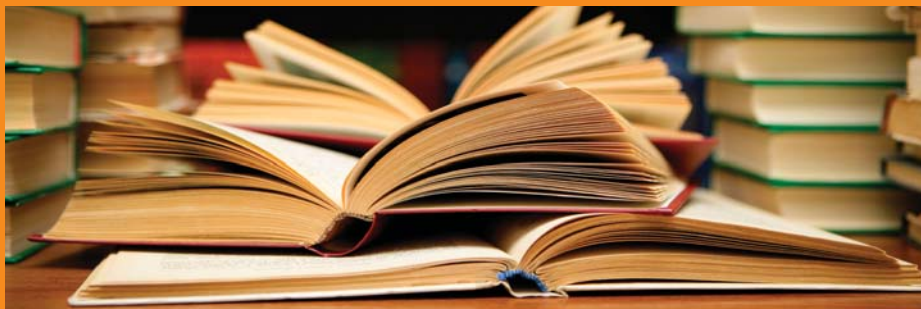

In short, by telling you what you need to know, rather than wasting your time on points that have no relevance.

It is this that has made us one of the few law firms ranked nationally as advisers to the education sector.

And it is this that has won us not only plaudits but the business of so many universities and colleges throughout the UK.

This strategy has also been instrumental in the significant increases in our work for education clients and tender wins.

...THAT YOU NEED.
